1. This application is in condition for allowance except for the following formal matters:

A. The replacement sheets of the drawings were received on February 3, 2005.

These drawings were disapproved because it fails to comply with 37 CFR 1.121(d)(1). In addition, the amended Figure 3 was missing from the drawing set.

In addition to Replacement Sheets containing the corrected drawing figure(s), applicant is required to submit a marked-up copy of each Replacement Sheet including annotations indicating the changes made to the previous version. The marked-up copy must be clearly labeled as "Annotated Sheets" and must be presented in the amendment or remarks section that explains the change(s) to the drawings. See 37 CFR 1.121(d)(1). Failure to timely submit the proposed drawing and marked-up copy will result in the abandonment of the application.

B. Claim 15 is objected to because of the following informalities: Regarding "said reconstructing" in line 1, the claim dependency for claim 15 should be changed from Claim 13 to claim 14 to avoid antecedent basis lacking. Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Holma and Faerber et al. are additionally cited to show the common feature of intersystem link transfer utilizing transport format combinations similar to the claimed invention.
